EDC Super Advocates
While we at the EDC are always hard at work urging Members of Congress to support eating disorders initiatives, there is nothing more important to Members of Congress than the opinions of their constituents.

We are looking for individuals to become a leader in their community, our Super Advocates will be tasked to (1) devote time for outreach to Members of Congress asking them to support EDC legislation and (2) help grow our advocate base in your community. We have five different levels for you to participate in and receive recognition for your time and dedication. If you are interested in participating or learning more, please reach out to Emily Rosenberg at erosenberg@eatingdisorderscoalition.org

Eating Disorders Personal Story Collection
The Eating Disorders Coalition continues to collect stories from our advocates on their experiences as military members, veterans, and their families who are/were affected by eating disorders in order to inform our advocacy efforts on Capitol Hill and develop a strong grassroots network of advocates across the U.S.

We are also collecting personal stories and advocacy interest from individuals on Medicare including persons aged 65 years of age and older and persons experiencing disabilities, and non-Medicare recipients who have had issues gaining insurance coverage for Nutrition Counseling (i.e., dietitian services) for their eating disorder.

If you have personal experiences with any of these issues, please fill out this survey for military and this survey for Medicare, disability, and/or Nutrition Counseling coverage.

EDC Action Alerts
The Eating Disorders Coalition continues to engage our community through Action Alerts via email and text message. We need your voice to contact elected officials to further important eating disorder legislative priorities. Would you like to be notified about Action Alerts via our new text message advocacy system in the future? Sign up through this link.
